Professional Summary

Driven and technically skilled high school student with experience in software development, systems engineering, and web design. Strong problem-solving abilities demonstrated through hands-on projects involving Arduino systems, ESP32 modules, and web development. Recognized for academic excellence, leadership participation, and the ability to quickly develop practical technical solutions.

Education

Coalinga High School — Class of 2027

Weighted GPA: 4.11 | Class Rank: #33

Achievements

- 2nd Place — ROP Career Challenge (Fresno): Designed and deployed a functional website during a timed competition.
- Academic Honor Roll — Maintained a 4.11 GPA while participating in leadership and technical activities.
- Selected participant in Career Technical Education Leadership programs.

Technical Skills

Programming & Web	HTML, CSS, GitHub, Netlify Deployment
Hardware & Systems	Arduino UNO, ESP32 Modules, Motor Shields
Software & Design	Adobe Photoshop, Technical Asset Design
Problem Solving	Technical troubleshooting and rapid system development

Projects

- **ESP32 Camera Rover System:** Developed a remote-control robotic platform using ESP32 camera modules and Arduino motor systems.
- **Portfolio Website:** Designed and maintained a professional online portfolio showcasing technical and academic accomplishments.
- **Canvas Grade Dashboard Concept:** Designed a productivity-focused academic dashboard integrating assignment tracking, grade impacts, and reminders.

Leadership & Activities

- CTEL Leadership Participant
- Drama & Arts Participation (2 Years)
- Community Service and Peer Tutoring
